***Re: Midvale Telephone Exchange
Compliance - Decision 66510***

Dear Ms. Kanlan:

Thank you for your recent telephone call concerning Midvale's compliance with Decision 66510. Midvale has one remaining compliance issue stemming from the decision. The decision requires Midvale to:

File a certification with the Director of the Utilities Division that all the required tower and right of way permits have been obtained within 365 days of the effective date of this Decision.

Midvale originally planned to serve the Poquito subdivision by locating a receiving microwave radio tower in the subdivision. However, the residents objected to the placement of the tower. Rather than attempt to obtain permission for placement of the tower from the Yavapai County Planning and Zoning Commission and from the Arizona Corporation Commission over the residents' objections, the Company has opted to instead install underground cable from our switch in Dewey to the Poquito subdivision.

Therefore Midvale has not, and will not, be obtaining the tower and right of way permits that are the subject of the compliance requirement. Midvale currently has an application

for RUS financing pending with the Commission, the funds of which will in part be used to install the underground cable necessary to serve the area.

We anticipate that this information will allow the Commission Staff to close its file in regards to Midvale's Compliance with Decision 66510. Copies of this letter will be filed with Docket Control.

Sincerely,

SHAW SCHLEGEL & HORTON Law Office, P.L.L.C.

Gary H. Horton
